**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Wow does the telecom need competition and we only have one good choice for super fast internet and the others only offer less than half the speed. These competitors are gearing up to compete. and let see if they can beat my carriers prices. There is no reason for prices to go up as the field enlarges so does the efficiency in costs.

Broadband is critical for my living and my families education. We previously had DSL and it was horrible and they didn't come close to their advertised speed, because I was to far from the terminal. I now have fiber and it has made a world of difference. The added bonus is the unlimited local and long distance phone service, which replace my land line.
